and the blackboards.

Shakespeare, in his famous lines on the seven ages of man, gave a typical view: "... the whining school-boy, with his satchel and shining morning face, creeping like snail unwillingly to school." For the typical boy (and, no doubt, the typical girl) is supposed to hate school as the devil hates holy water.

This, of course, is a vast exaggeration. For modern education, whatever its faults may be, is enormously different than in Shakespeare's time. Incredible new worlds have been opened, or are being expored. The frontiers of knowledge are being advanced at an almost unbelievable speed. The youth of today is offered opportunities that would have been unimaginable even a few years ago. The opportunity is there — it is up to each individual whether it shall be used to the full or not.

One more word from the past is in order. When Aristotle was asked how much educated men were superior to those uneducated, he said, "As much as the iving are to the dead.'

George stayed or Thursday at his former high school to visit with his former roommate, Pat Bowlen, whose younger brother was entering Campion and other friends, as well as David. There is a hush on the AuSable, silence in the woods and the babble is gone from the Hideout of Big Creek. The annual migration has occurred and the Longdykes plus their guests have gone south to their various homes. Cabin guests at the Hideout over the Labor Day weekend were Mr. and Mrs. Oliver Kieffer of Lake Fenton. Joanne and her fiance Harold Cox appeared at the cabin at feed bag time around the clock. Doreen who is pretty well acclimated to cabin life, passed the time away visiting neighbors, fishing, woods walking and playing badminton with whomever she could corral The Longdykes were visited by Carl and Mabel Warnick and Doug and Gus Middleton spent a good part of their time reminsting with the cabin bunch. Mr. and Mrs. Ken Kerch and four children from Kerchtown Cabin at Lewiston were among those who dropped in for a short but long stay. The 1963 season has been a most enjoyable one for Mrs. L. with just one youngster to tend compared to the days where there were five children taking up her time. And so with spirits bright Mrs. L. has returned to her home to prepare for an extensive trip to British Columbia, California, Mexico and Texas.
